

JavaScript Day 4

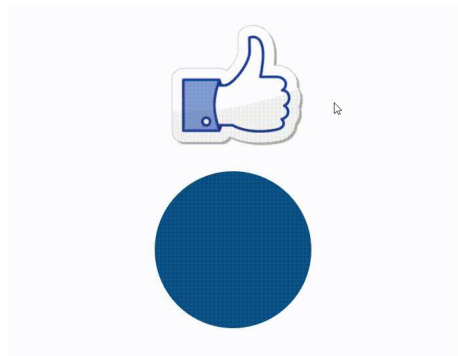

**Everything in red is bonus*

Location Object:

1. Make your own welcoming page that should be displayed after registration form to display a greeting for the user by his name and email.

DOM:

2. Make a likes counter. *HTML for this is given with assignment if you want to*

use it

3. Make a page to get user skills where user can add any skill by clicking a button..

A screenshot of a web browser window. The address bar shows 'http://127.0.0.1:61901/skills...'. The page has a title 'Add yor skills' (note the typo). Below the title is a text input field containing the letter 'I' and a blue 'Add' button. Below the input field is the text 'your skills :'. At the bottom is a large, empty rectangular box for listing skills.
